# When the Dust Settles...

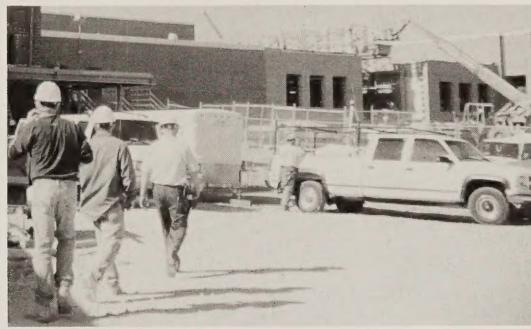

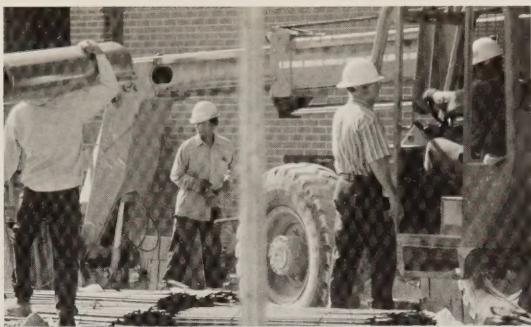

While Meadowbrook was experiencing the first of several major stages of renovation, the school seemed to change daily. In September, two new hallways were opened, which added to the confusion of starting a new school year. The upperclassmen felt they had to learn their way around school as if they were freshmen again. The teachers never lost their sense of humor, even when several of them could not get into their brand new classrooms until the first day of school (and some of those rooms had no ceilings!). Despite it all, teachers and students managed to settle into work. All the confusion was taken in stride as everyone looked forward to the completion of the 21st century version of MBK. *When The Dust Settles*, MBK will have a fresh, new look but the family feeling will remain the same.

Mr. Oley, Principal

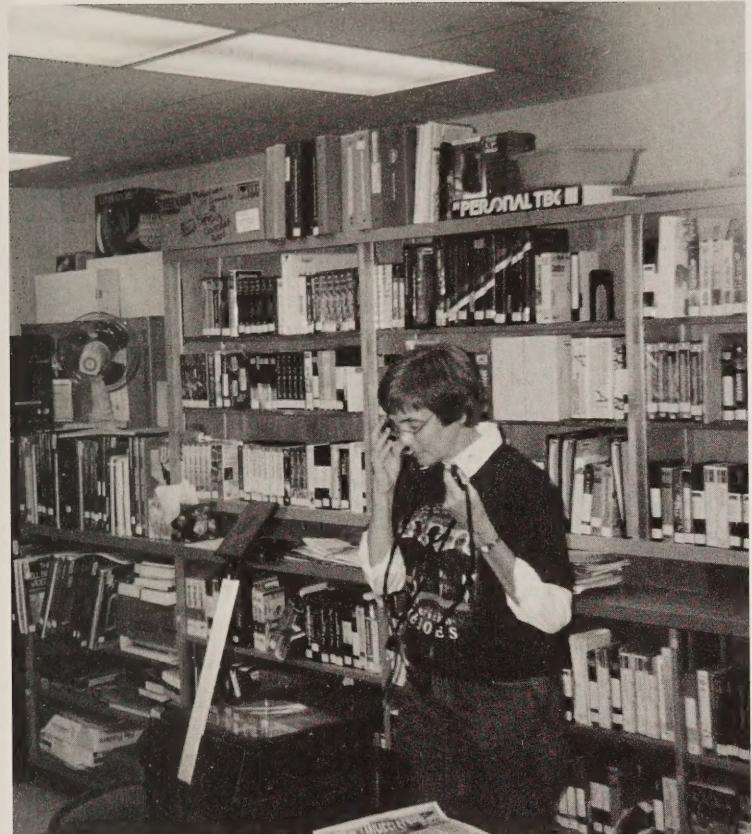

"I think it will be a great improvement and will enhance our learning abilities."

"I think Meadowbrook will be an opportunity for many different people to advance their learning."

"MBK will be the most incredible, updated school in Chesterfield County."

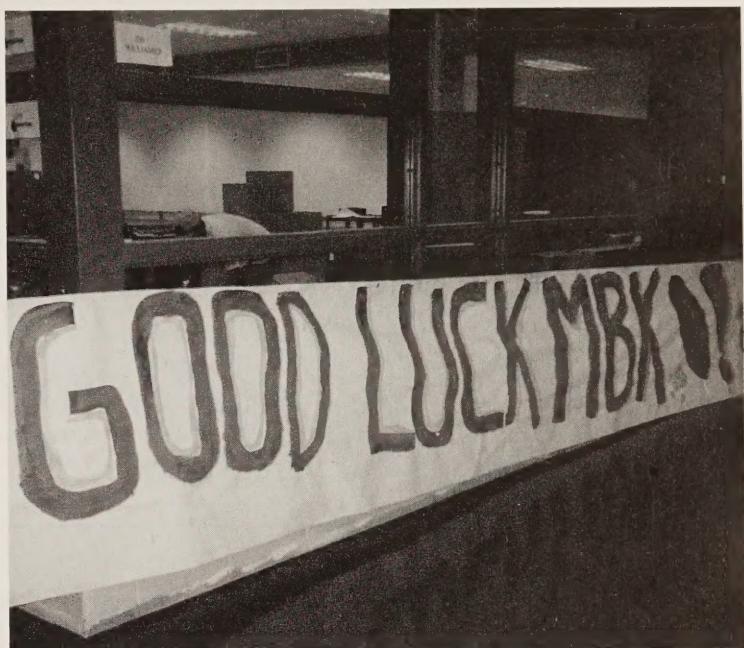

"MBK will look like a digital palace when the renovation is complete"

***From trailers to technology, Meadowbrook is morphing before our eyes. As administrators work in shared, cramped spaces, the library/media center is a classroom and students need every bit of 8 minutes to get from the academic village to the second floor of the building, we see the slow, but remarkable changes of the 21st century version of MBK. Opinions vary greatly from students and faculty alike, but all look forward to the finish...***

The World Trade Center collapses after the attack

*As students and teachers were just settling into the routine of a new school year, word spread quickly throughout MBK of the horrific events unfolding in New York, Washington, D.C, and Pennsylvania. We, as a group, reacted with horror, fear, anger and an unrelenting desire to help in any way we could. We dedicate this yearbook, in part, to the thousands of innocent people who lost their lives that day.*

Editor's note: When the yearbook staff decided on the theme "When the Dust Settles, we had no idea how prophetic this theme would become.

An American Flag is raised in the rubble of the World Trade Center as rescue workers tirelessly continue their search.

The streets of New York surrounding the World Trade Center were covered in several inches of dust and debris in the aftermath of the attacks as people came to each other's rescue despite the danger.

# What was your response?

"This travesty has changed the world forever. No longer will we view the U.S. as the superpower we supposedly are. We need to pick up where we left off and look toward a future without terrorism."

Matt Gumm

"I thought that is was scary and heartbreakingly that people would do something so inhumane. I hope nothing like this ever happens again. GOD BLESS AMERICA."

Joey Yau

# Dusty Times

Here at MBK, students spend their time participating in many activites. During homecoming week you can easily find a wacky outfit, a cool hat, experience an exciting football game, and a memorable dance. The students also give of themselves and help others by holding blood and canned food drives. Even when not at school, monarchs still capture the spotlight by doing exceptional work at their jobs, volunteering or winning various competitions. MBK is made up of a diverse group of people with each one having their own trend, style, and flava. Even though they might be preoccupied by other things like their next date, tomorrow's outfit, or what time they have to be at work, school is always their #1 prority. By involving themselves throughtout the year in various activites MBK students begin settling into their lifestyles.

Seniors Ashley Jones and Chiquila McVey are scrummaging before our annual Powder Puff game.

# Spirit Week

Spirit Week is a time that Meadowbrook students show colorful enthusiasm for their school.

Throughout the week they dress in eye-popping outfits always trying to outdo someone else. Saturday, students get to dress up in their finest for the Homecoming Dance.

It is always an exciting week to both be a spectator and a participant. Students come away from this week with a renewed sense of pride in MBK.

Oh say can you see! Freshman Jared Thomas shows us how much he loves the U.S.A.

Mr. Clark and Mrs. Householder show that they are running things!

Orn Ny and Shannon Tiller enjoy hanging out at the dance.

## When You Wish Upon a Star...

The excitement didn't end at the game Friday night. Students and friends danced the night away at Homecoming 2001 where the theme was "When You Wish Upon A Star". The dance was held in the cafeteria but that didn't stop the students from having a ball. Everyone seemed to enjoy the dance and wonders what is in store for next year.

Nikki Ashe and Dee Mayo take a break to smile for the camera.

Toussaints Bubanzi and Shelly Farrar are all smiles before they hit the dance floor.

This is indeed the last dance for seniors Steven Traylor and Dana Worner.

The annual blood drive has become a very popular event at Meadowbrook High. Students and teachers are always willing to help others in need by donating blood.

With a smile, these nurses help to comfort those students giving blood.

## The Blood Drive

Even though at first she had minor complications, Alexia Jenkins was still able to help donate in the blood drive.

Monica checks in students as they arrive to donate blood.

As always, Ms. Rizzo is ready to donate blood at the annual blood drive.

**Above:** Always with a smile on her face, Nicole poses elegantly for the camera. **Right:** During homecoming at VSU, Nicole is crowned and commended as "Miss Gold Bowl."

# GOLD BOWL

The Miss Gold Bowl Classic Pageant was held on October 14, 2001, in Richmond. Sixteen young high school seniors competed for the title. The young ladies were required to write an essay, perform a talent, and answer a question during the competition. Schools were represented from Chesterfield, Henrico, Richmond, Charles City as well as the Appomattox Regional Governor's School.

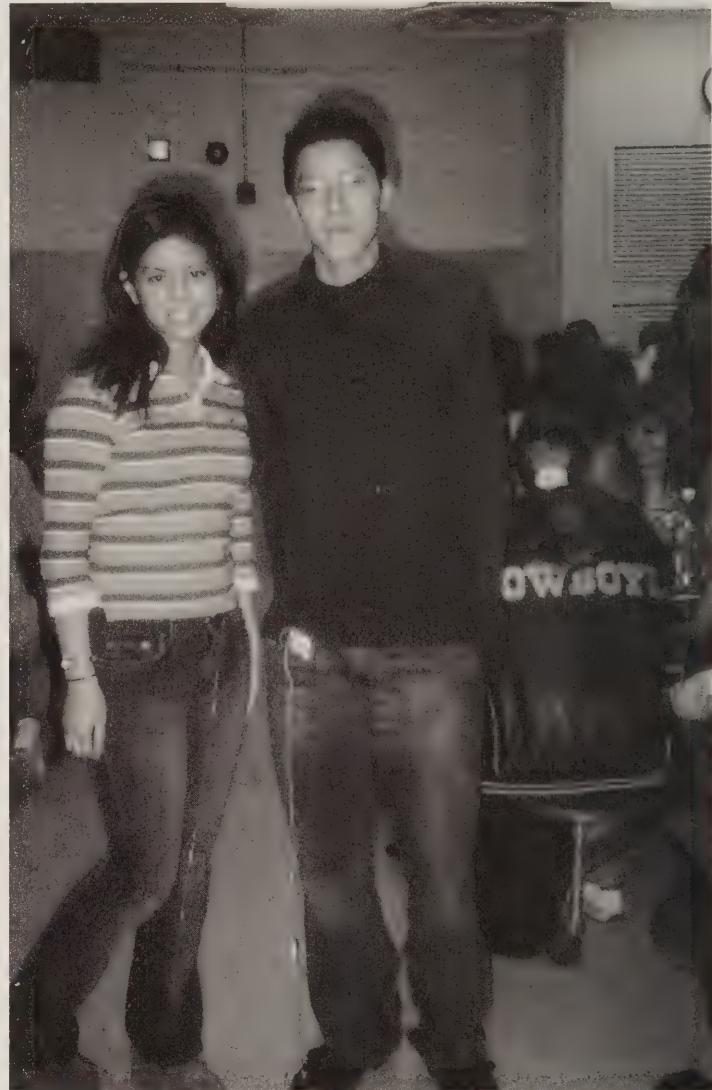

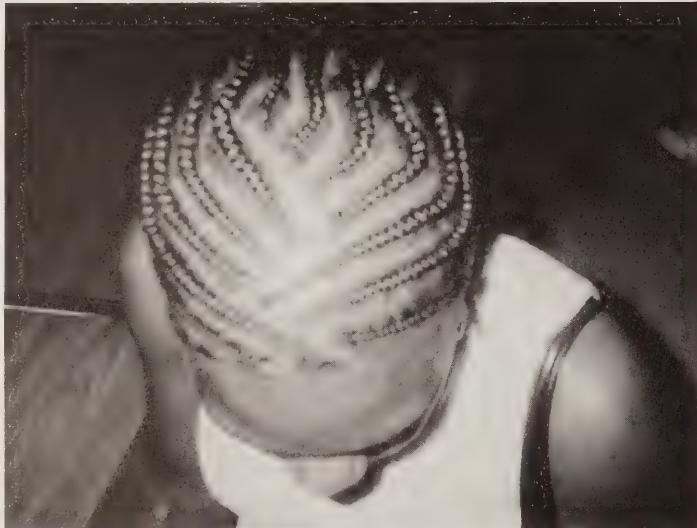

Two of Meadowbrook's finest, Nicole Eason and Christina Collins participated in the Gold Bowl. Nicole was crowned "Miss Gold Bowl" and received a \$3,000 scholarship.

Mrs. Rita Harper, assistant principal, is a member of the pageant committee and has been involved with the Gold Bowl since 1988. During that time she has had eight queens, seven first place runner-ups and five second place runner-ups, with a total of \$43,000 in scholarships.

Thanks Mrs. Harper for bringing the gold to Meadowbrook!

This year cornrows were a big thing for everybody, girls and guys. Striped polos and quarter-length sweaters were big with the females, where jeans with the slightly bleached or faded look appealed to everyone.

## Settling Trends

From hairstyles to clothing every year there's a new trend. Each individual has their own style and panache regardless of anybody else. Walking around Meadowbrook, its a rare day when you find someone with the same look.

Anthony Genau keeps it simple with a t-shirt, jeans, and tennis shoes.

India Smith wows us with an outfit she designed herself.

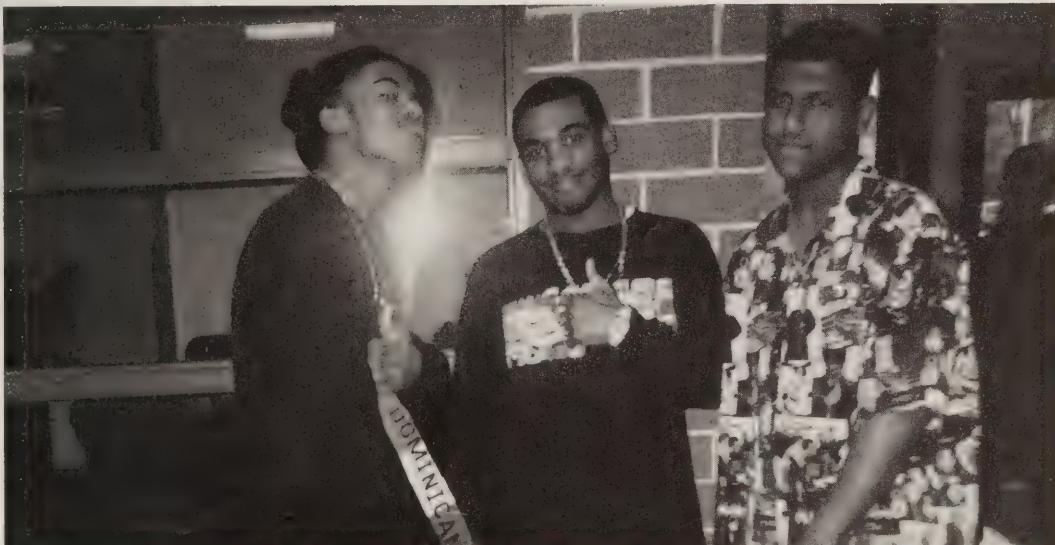

Comfort is key when it comes to dressing for school.

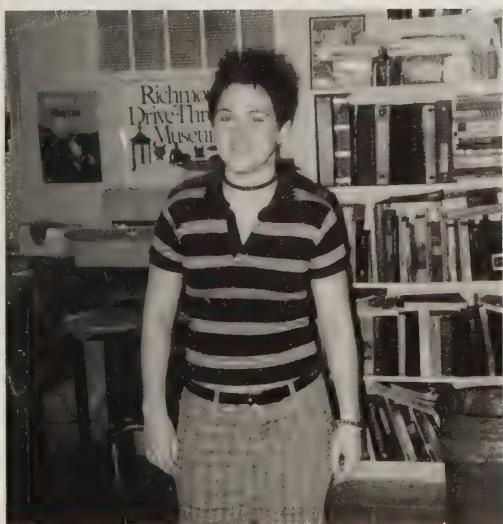

Brian strikes a pose in his Guess? t-shirt.

## Settling Trends

Whatever you wear individuality is key. Whether you design it yourself or spend hours in the mall picking something out, its you. Some trends last for a day and are only used by some. But others catch on for years and become settling trends.

Every culture has their own style and way of dress including t-shirts and brightly patterned FUBU shirts.

Sophomore Dante Ruffin is dressed to impress in black and white from head to toe.

When going out always strive to look your best and wear a smile.

Senior Sara Bohannon boasts her individuality with an eclectic mix of stripes and plaids.

# Just Between Us

Ahhh. Finding that one true love. Everyone dreams of having that high school romance. You know, the one where you meet someone and fall in love and eventually marry your high school sweetheart and live happily ever after? For some people that's a reality. But in order to get there we all have to go through the process of dating. From who asks whom, to what to wear for the big night, the process of dat-

ing can be such an ordeal. You never know just what to talk about or where you want to go or how to act. But if you ask anyone they'll tell you that's all worth it.

Billy Martinez and his girl friend take time to talk to one another in between classes.

*"My ideal date is on the beach having a picnic dinner with fruit, candles, and a live musician."*

Nicole Eason  
Senior

Junior Josh Cabaniss and Sophomore Jennifer take time out to pose before going to the Home Coming Dance.

*"I don't go out of my way to meet girls because there are nice, pretty girls at places like church and the grocery store."*

Brandon James  
Junior

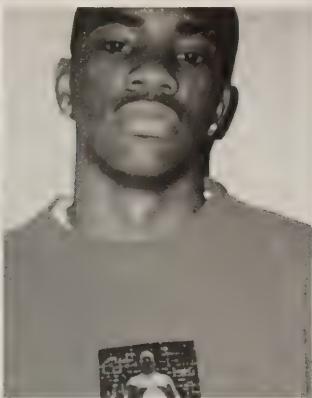

*"It took my husband way too long to ask me out. When he finally did he took me out to a fancy restaurant and tried to impress me."*

Ruth Schoenhut  
Teacher/Yearbook Sponsor

## Just Between Us

*"On a date, I would wear an Izod sweater, khakis, and a pair of Timberlands. The car I would drive is a '95 Mitsubishi Diamante. As far as who pays: The person who asks pays. If the guy has a nice time on the date, he makes the first call."*

C.J. Robinson  
Senior

*"My worst date was with a guy from my church. He didn't have his license so his dad had to be our chaffuer. We went to go see the low budget version of "Godzilla"."*

Shari Gray  
Senior

*"Either the girl or the guy should ask. It really depends on who likes who more. My ideal date would be on the edge of a cliff with the emergency brake on."*

Stanley Edwards  
Senior

*"I think that the guy should be the one to ask the girl out. He should pay for the first date but the girl should pay for her self sometimes."*

Angela Walker  
Senior

No matter how your first date turns out you will always have that memorable night for years to come. For some you get to have that once in a lifetime dream date that's lasts forever. But for others it can turn out to be a date that you wish would end. But no matter what, it will always be a night, or day, that you'll never forget.

Seniors BJ Dugger and Amber Howard take a moment to pose for the camera in their twin day outfits.

Whitney Pillow and boyfriend Jeff Martin spend quality time in the cafeteria during lunch.

# LUNCH TIME

Some seniors enjoy their lunch in the TC Commons. They do everything from eating lunch to doing homework and most of all, talk and have fun.

**Top Right:** Thai Kong, Orn Ny, and friends enjoy chatting while eating lunch.

**Bottom Right:** Seniors LaTosha Hines, Shari Gray, Shaunte Barber discuss hot topics during their lunch time.

**Right:** Josh Lewis, Maurice Hughs along with other seniors enjoy their conversation in the cafeteria.

**Far Right:** The coaches talk strategy over lunch.

**"I eat very nutritious food and talk to my friends."**

**Taj Mukadam**

**"I like to socialize with my friends."**

**Robyn Touch**

**"I just sit down and talk."**

# FRIENDSHIP

You  
Said  
it

Even with all the different cultures and beliefs here at Meadowbrook, one word is still the same in every language, FRIEND. A friend is someone who stands by you through thick and thin, helps you up if you fall, hugs and comforts you when you're sad, and listens to all your problems no matter what they are. Friends are very special people in everybody's life. They're priceless, so cherish each and every friend you have.

Best Friends Jennifer Rowland, Dana Reed, Amy Bohannan, Sam Desha, & Jeri Lupejki have a very close cheerleading bond.

Eric Philipkosky and Sheri Shiflett are trustworthy and fun loving friends.

Teachers and students also have a close bond as with Mr. Barrack, Evalina Laboy, Carmen Davis and Kalisha Blocker.

Good friends Jaimie Wilson, Ayesha Osborn, Chan Ing, and Nichole McNair show their love by posing for the camera.

---

"A friend is someone who is there for you All the time, never wavering and always in your corner."

"A friend is someone you can trust and have open communication with."

"A friend is someone you are most comfortable with"

# I Am But Dust

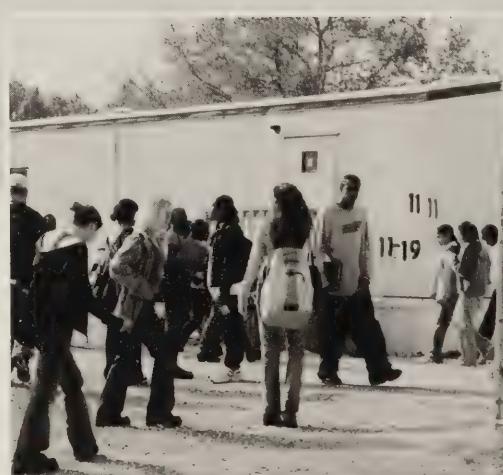

That may be how a lot of us feel! Just walk out to the trailers on a dry day and dust seems to be everywhere. We feel as though we will turn into dust. But, the truth is we are much more than just the dust we kick up. We are freshmen who are experiencing our first year as high school students and we are sophomores who feel comfortable with our routine. We are juniors who are beginning to explore life after high school, whether it be a college visitation or a career exploration. And we are seniors who are more than anxious for June to get here so we can get to the next stage in our lives. We all have big dreams for the future and know that what we accomplish here will influence our plans.

We are also a group of dedicated faculty and staff who help each student work to his or her potential every day of the school year. From teachers to administrators to custodial staff, each of us plays an important role in the day to day functioning of MBK. Although, for most of us, teaching is a major part of our day, we stay after school for tutoring, we diligently carry out our duty assignments and we keep our facilities as clean as possible while undergoing this renovation.

Each person who walks into this building every day is a part of the MBK family. We all have our roles to play and like any other family, will have good times and bad but will always stand together when we need to.

Mr. Carr, guidance coordinator, relaxes after a long day of work.

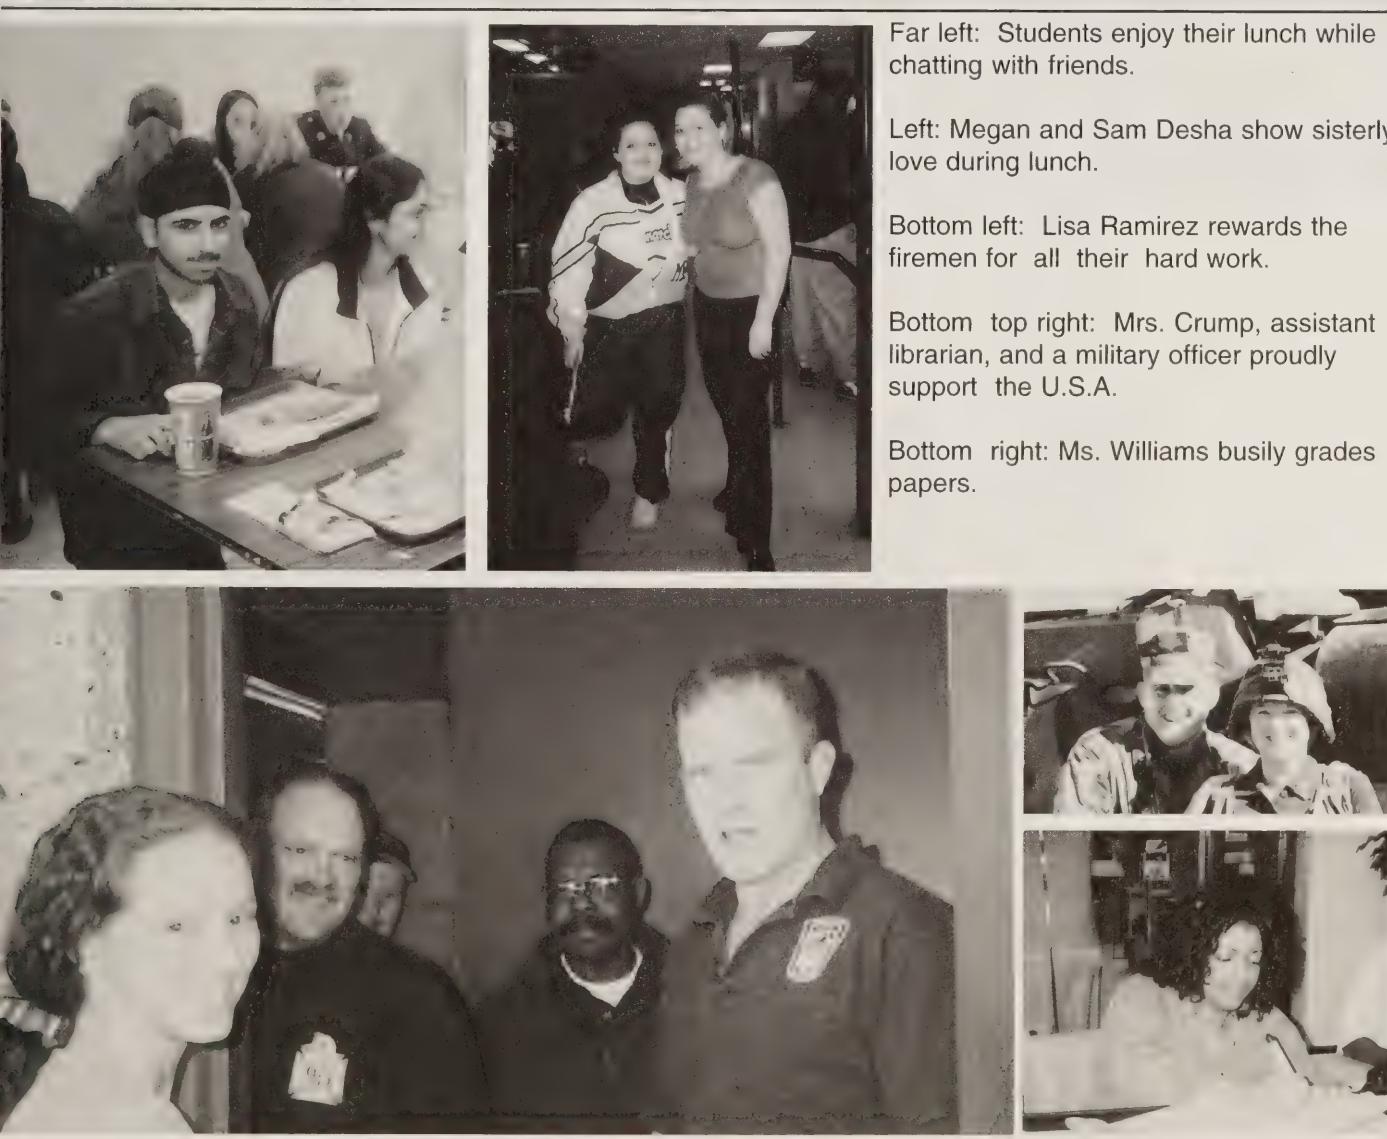

Anticipating students hurry to make their way to class before the bell.

"Smile for the camera! " Ashley Howlett strikes a pose.

Freshmen. The new kids on the block. Gotta get used to a whole new building and all new teachers, not to mention the "Academic Village". It can be a major adjustment for some and really easy for others, but it promises to never be dull! Expectations are high for the freshmen, as well as their teachers, and amazingly everyone lives up to whatever comes their way.

# The Sophomore Class

Year two at MBK. Not first-timers, yet a couple of years to go before senior privileges kick in. Classes are more challenging, but on a happier note, it's the last year of P.E. and most sophomores take driver's ed. so that they can earn their driver's license and independence. It's also a year where students start considering their options after high school. Definitely not new kids on the block, they have settled in nicely.

# The Junior Class

When you reach junior status you finally get to receive the title of an upperclassman. This is the year when you start to look forward to being a senior and ultimately graduating. This is the time you start to focus on your grades and start looking at prospective colleges. This is when the madness starts. This is the year when you can see the finish line drawing near.

One way to look back upon your days at school after graduating is to look at the ring on your hand.

A class ring is a great way for a graduate to show his or her own style with a personalized ring.

Four years of high school comes to a completion on a glorious occasion, graduation. It is a stepping-stone for graduates to get out in the real world. It is culminated with an invitation inviting friends and family to share this once-in-a-lifetime occasion.

*Admission by ticket only*

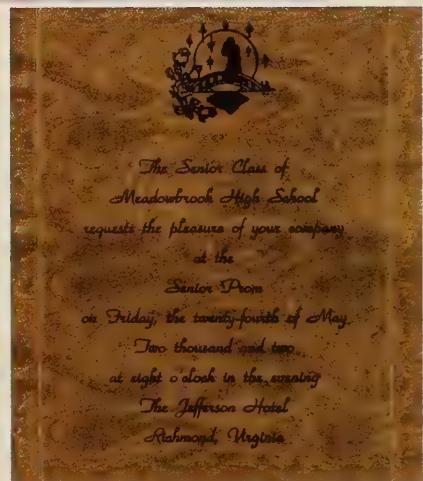

During the year there are several events in which seniors participate. Sometimes the only way to keep track of all the events is to take a look at the senior bulletin board.

*Senior  
02*

Senior Christy Monteria sporting her 2002 graduate shirt with pride. This is just one of the items that a senior can purchase to commemorate his or her senior year.

Prom is an evening most will never forget. It is an elegant time for juniors and seniors to enjoy. It is a gift for the senior class from the junior class. The plans for this wonderful evening begin with a formal invitation.

## Faculty and Staff

Below: Mr. Street works with his students

How could a school be so lucky to have such talented, educated, caring teachers to mentor the students? The faculty of Meadowbrook is a cohesive group of men and women from all backgrounds and interests who work daily to stretch the students' minds a bit further. And, where would Meadowbrook be without the dedicated support staff of secretaries, custodians and cafeteria workers? Our school would be a lot poorer in many respects without them.

## Our Fantastic Faculty and Staff

This school would not run smoothly without *all* of the people who work here. Not only do we have a first class group of teachers, but we also have a wonderful secretarial staff and a group of custodians who have been recognized by the county for their superb efforts in keeping Meadowbrook clean and orderly. Clockwise from top: Mrs. Harris gets into the JROTC spirit; Mrs. Hite answers another important call; Brenda Marable and Mildred Carter, two of our custodians, pose for us; Dr. Marks and Ms. Rizzo pal it up in the hallway; Mr. Oley and our favorite mascot smile for the camera.

Okay, so Mrs. Pinney has a BMW convertible and Mr. Cathers has a Corvette. We *all* get to school somehow!

Isn't it funny? These two are the people who you think make you laugh the most! Actually, this was a really tight race between Mr. Windham and Mr. Carr. Apparently, Mr. Windham told one more really funny joke!

The Best Dressed category was really close, and not between two *women*! Interestingly, many teachers voted for both Mr. Bosh and Mr. Reynolds! You go guys!

The category was *SHOULD* be a couple, not already *ARE*! C'mon guys, you can do better than that!

Let's see, how many trees could these two have saved???

You like them, you *really* like them!

There were a lot of opinions about who was most opinionated! Congratulations (or condolences) to Col. Hall and Mrs. Hornberger.

Gullible? What's gullible?

Mr. Wasnock and Mrs. Henly apparently like to laugh!

Go MBK! Go Mr. Hawkins and Ms. Harris!

## *Dedication to Mrs. Kramb*

There comes a time in every teacher's career when she has to leave her students and move on to a more relaxing time in her life. This year Mrs. Kramb, a teacher at MBK for ten years, has decided that she would make the 2002 school year her last. We will all miss Mrs. Kramb's generous, loving, and supportive personality. So we, in part, dedicate this book to her. We sat down with Mrs. Kramb to find out her feelings about leaving and her plans for retirement.

1. What made you want to start teaching?

"Loving teenagers and being a youth minister at my church."

2. What are you going to do after you retire?

"Have fun"

3. What are you most proud of?

"Through my involvement with the Interact Club, getting flags of the nations our ESL students represent"

4. Throughout your years of teaching is there anything that you regret?

"SOLs"

5. Are you sad or happy that you are leaving?

"Both, I will miss my students but I can start a new journey in my life. I want to start writing books."

6. Are you sad about leaving in the middle of construction and will you come back?

"I am not sad but I will absolutely come back to visit"

# Dedication to Mrs. Bareford

This year may be one of Meadowbrook's best but also one of its worst, because we are bidding farewell to two of the most outstanding members of our faculty. Mrs. Bareford has been teaching for thirty-one years, and this year she has finally decided to take the starring role in the play of her life. Her presence here within the halls of MBK, along with her talent in the performing arts will be missed. To many of us she will be remembered as "Momma B.", but to the rest of us she will always be known as the woman behind the scenes of Meadowbrook's greatest theatrical productions. In order for us to find out more about the reasons and her thoughts about leaving, Mrs. Bareford took time out of her busy schedule to sit down for an interview.

1. What was your most embarrassing moment?

"I was taking my kids to see *The Limping Ghost of Weathercock House* and I told them that they were going to see *The Limping Cock of Weatherghost House*."

2. What were your best years at Meadowbrook?

"The year we did *Fame* and some years back in the late 70's, early 80's."

3. What are you going to do after you retire?

"Not wake up at 4:30 in the morning. Spend more time working at my wedding consultant business."

4. What was your most memorable moment?

"There are good and bad memories (9/11, Challenger blowing up, students getting a standing ovation)."

5. Throughout your years of teaching, is there anything that you regret?

"Not being able to get my Master's degree and not doing any acting myself."

6. Are you sad about leaving in the middle of construction and will you come back?

"I'm sad about leaving before the new auditorium is finished, but I will come back."

# Chalk Dust

While Meadowbrook is in the midst of construction, the classes still seem to be busy. Teachers are preparing students to take the SOL's because there are higher standards set. Seniors are enjoying their year while stressing and studying to take the SAT's. No one seems to mind the noise of the construction because classes go on with only minor interruptions. By the look of things, Meadowbrook will be the school of the future. Everyone seems to enjoy the new science classes and library and now they are waiting for the remainder of the school to be completed. Everyone is going to miss Ms. Kramb and Ms. Bareford because they are retiring this year. Although Meadowbrook is losing two good teachers we will continue to move toward the future and make this a better school.

# ENGLISH

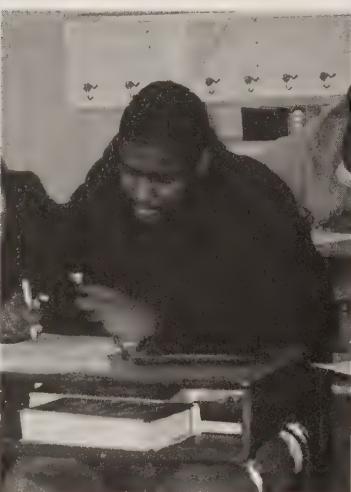

Here at Meadowbrook, we are constantly striving to do our best. That is exactly what our English Department is doing. They are teaching us the fundamentals of being good writers. In addition to teaching us to write, they open our world through short stories and novels, taking us to places we never dreamed of. Although it may be a difficult subject, our English teachers endeavor to help us become the best we can be.

# MATH

We face many challenges in school and Math ranks right up at the top of the list. With classes ranging from Algebra I all the way to Calculus, our math teachers go out of their way to make sure we are successful. Math isn't just about whether you know Pythagorean Theorem or the circumference of a circle. We use math every day of our lives. From grocery shopping to buying carpet to balancing a checkbook, the skills we learn here help us to be responsible adults.

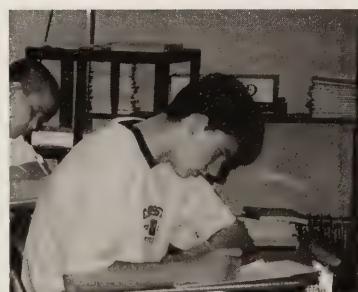

# History

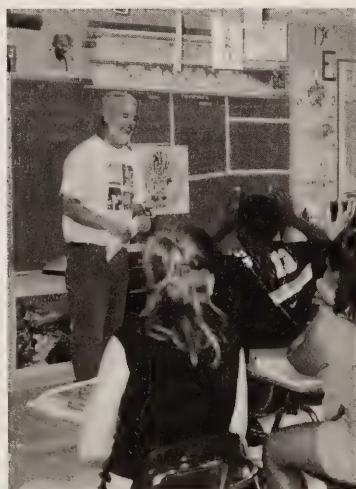

Learning about the past helps us understand how we got to the year 2002. Where did the basic ideas of Democracy come from? How did Nomads learn to live in one place and farm? What were the first tools used by man? How did different religions develop? These are the questions that our Social Studies teachers help us find the answers to. They test our ability to think and reason about how the past will influence our future. We thank all of our outstanding teachers for the opportunity to learn about the history of our world.

# Science

What causes a thunderstorm to produce hail? Why do some people have blue eyes? What happens when you mix hydrogen and carbon together? If you know the answers to these questions, thank a science teacher. Meadowbrook is so fortunate to have such a strong group of scientists to teach us the many areas of science. They enhance our learning by conducting labs with experiments that require us to form our own opinions about what we see in front of our eyes. The world is always changing and we will always have questions about the reasons for those changes. Our science department will be there to help us find the answers.

# Business & Technology

With the growing number of jobs opening up for young people today, knowledge of computer useage is right up there on the top of the list. By taking one if the many business classes that Meadowbrook offers, students have a great opportunity to learn some of those skills that will be used later on in life. Besides just business classes, there are also classes that get you out in the real world. The COE program allows you to be placed in a job in the field that you want to work in. There are so many ways to get involved in the business department. Many of them can train you for the job you want.

## Fine Arts

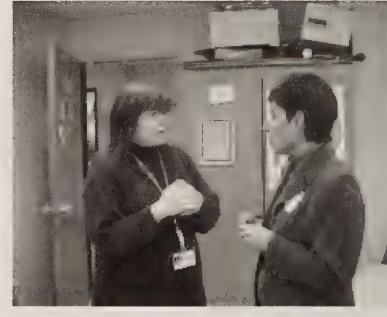

One of the greatest programs in our school would have to be the Fine Arts program. We have the band, chorus, and art all in one. The band provides us with the musical stylings of great composers in their winter and fall concerts. Our choral department gives us great performances year round and they always sound spectacular. Also our art department shows their work year round in the hallways and at competitions. They provide lovely artwork for the entire school to see. Finally, there is the theater department who entertain us with great plays and shows. Their work never goes unappreciated. Everyone who participates in these activities are proud of what they do. The Fine Arts department is always increasing in talent.

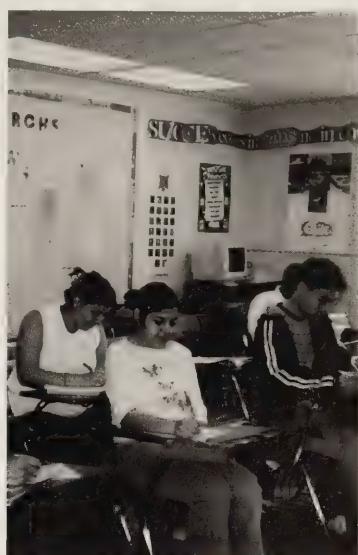

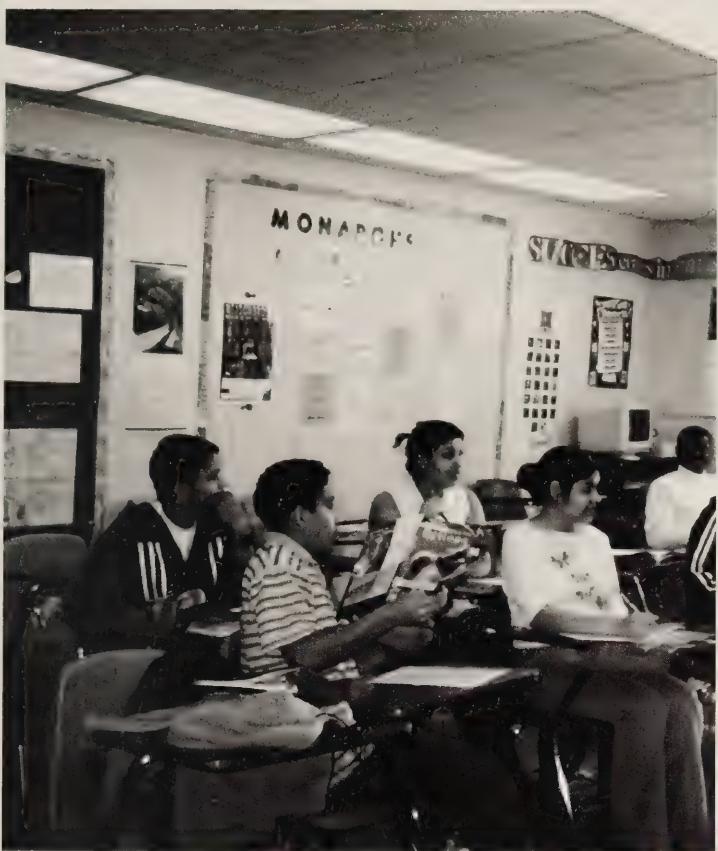

# World Languages *You Said It*

Como esta? Como se va? How many ways can you say, "How are you?" Here at MBK, you can learn to say it five different ways, including with your hands. Meadowbrook had a two year experimental program with ASL, the language of the deaf. But what if you want to visit a foreign country? You would need the skills our fantastic teachers will provide you with. All world languages originated from Latin. How about a good party? The World Language department throws a fiesta every year in which students learn to appreciate the cultures and foods associated with a particular language. Come join the world tour!

Below are a collage of pictures representing the World Languages Department:

Left: Learning English is challenging for the ESL students

Left: ESL students work on their homework

Mrs. Womack's study methods students stay focused on their assignment

## ESL / Special Education

Two of the departments that don't get a lot of publicity are as equally important as all the others. The ESL department teaches students who are new to the country how to speak English. Just imagine moving to a foreign country and not understanding a word of what was said. The ESL department makes that transition easier. The Special Education department works with students who have a learning disability, emotional problems or who are mildly mentally handicapped. Students in these programs are mainstreamed with their peers as much as their teachers feel they can be and are accepted without question. We salute these two programs for adding so much to the atmosphere of MBK.

# Settling the Score

Players and Meadowbrook spectators make up our athletic program. It is an opportunity for us to unite. Hours of practice are put in each week so we will be prepared to play. We fight through injuries or any other obstacles that may stand in our way. Sometimes we may feel down and disappointed, but we always can depend on our fans to motivate, energize, and support us before, during, and after each game. We take our defeats graciously, learn from our mistakes and continue to give it one-hundred percent. When we win, we do it with class and sportsmanship. When teams come to the "Brook" they know they are in for a battle. Because of exceptional talent and tremendous coaching, we are always contenders. So whatever surfaces we may play on. We are always ready to settle the score.

# FOOTBALL

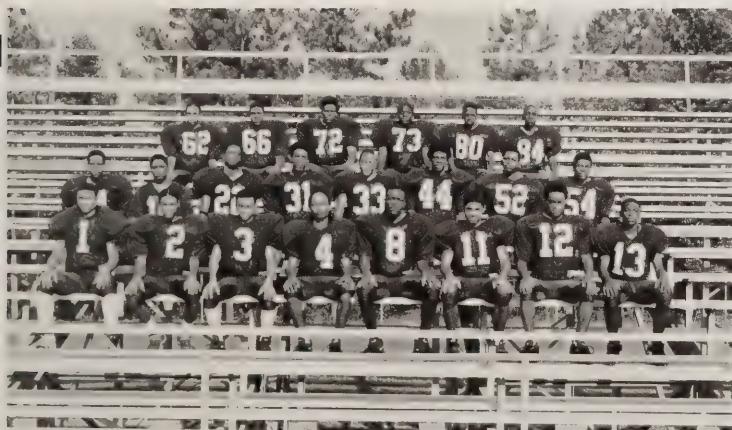

Despite being the underclassmen our JV and Freshmen teams are always strong.

Our JV finished the season with 5 wins and 4 losses. They were also 5 and 1 in District games. They averaged scoring 17 points a game and only giving up 12 points.

The Freshmen team always dominates the playing field, having a record of 4 and 1 and 2 and 0 record in District games. They lit up opponents by out scoring them at an average score of 30 to 3. They incredibly shut out Midlothian, Hopewell, Thomas Dale and L.C. Bird.

# **Step Team**

Stepping is when you use your hands, feet, thighs and other parts of your body to form a beat. You can make the same beat but use different motions to get the beat.

When stepping you have to have PIA (Precision, Intensity, Attitude). These 3 fundamentals are the golden rules to stepping. Intensity is the nucleus that strengthens Precision and Attitude. To be a part of any team you must have self-discipline and citizenship. The Stepping Monarchs of 2001-2002 represented MBK very well on February 4, 2002 by winning first place at the 4th annual Gospel Step Show in the school region.

cancer that struck her so suddenly. In true MBK fashion, we rejoiced when Arien joined us for the Homecoming Dance in October and we rallied for Jenny by dedicating several fund raisers to Jenny's medical care. We are more than glad to support our MBK family in good times and in bad and we hope that the future is all that Arien and Jenny want it to be. So, here's to you, Arien and Jenny.

With love.  
From your MBK family

Meadowbrook is a community with businesses and parents that support the school in so many ways. We have active members of the School Board as well as the Board of Supervisors who take time from their busy schedules to attend our important events. The community at large is an integral part of the success of our school. We thank those businesses and people who support our school on a daily basis!

# Samantha Rose

Samantha we have watched you grow over the years. You have had many obstacles to overcome and you took them in stride. You have grown into a beautiful young lady and we are extremely proud of you. So keep your feet on the ground and keep reaching for the stars. We love you.

Love,  
Mom & Dad

To my wonderful sister may all your hopes and dreams come true.

Love,
